Hi, I'm **Priyesh Kumar Rai**, and I'm **Full Stack Web Developer!** With a Diploma in **Computer Science and Engineering** from Feroze Gandhi Polytechnic. I love building stuff for the web, and I've got skills in **HTML, CSS, JavaScript, Node.js, Express.js, PHP, MongoDB, MySQL, React.js, Bootstrap, Tailwind CSS, Git, and GitHub.** I'm super excited about creating smooth and user-friendly websites. Completed a 2-month **training at SoftPro India Pvt Ltd**, focusing on Java development, contributing to a Collage Management Project for Nalanda Open University.

Experience

2022-PRESENT
Freelance Web Developer.

JULY 2022 – SEPTEMBER 2022
Web Developer Trainee at SoftPro India.
Worked on a Collage Management Project for Nalanda Open University. Gained practical experience in Java development. Collaborated with team members to deliver project milestones within deadlines.

Skills

- **Frontend Development:** HTML, CSS, JavaScript, React.js.
- **Backend Development**: Node.js, Express.js, PHP.
- **Database**: MongoDB, MySQL.
- **UI Frameworks**: Bootstrap, Tailwind CSS.
- **API-related skills:** API Integration, RESTful APIs, JSON/XML Parsing, API Authentication (JWT), API Testing (Postman), Third-party API Usage (Google Maps API, Twitter API, Coin cap API etc.)
- **Version Control**: Git, GitHub.
- **Programing Languages:** C, Java.
- **Other Skills**: Responsive Design, UI/UX Design, WordPress.

Education

2020
Heigh School | Heritage International Public School (CBSE), Kasia, Kushinagar, UP.

NOVEMBER 2020 – JULY 2023
Diploma In Computer Science & Engineering | Feroze Gandhi Polytechnic, Raebareli, UP, 229326.

My Projects

Collage Management System.

- I have developed collage management system in my Java training for Nalanda Open University. In this project technology I used is HTML, CSS, Java Script, Bootstrap, Java, JSP, JDBC, MySQL & Spring.

Hospital Management System.

· https://doctorportels.000webhostapp.com

• I have developed hospital management system in my collage projects. In this project technology I used is HTML, CSS, Java Script, Bootstrap, PHP, MySQL, jQuery & other UI and fonts library.

Google GEMINI AI Clone.

· https://googlegeminiai.netlify.app

• Implemented Google Gemini Clone using React and Google Gemini API to deliver real-time responses based on user prompts.

Discussion Portal.

· https://github.com/PriyeshRai369/discussionportal

• Developed a dynamic discussion portal using JavaScript, EJS, Node.js, and MongoDB, facilitating open dialogue and knowledge-sharing among users. The web application allows users to ask questions, provide answers, and engage in tech discussions within specific technology categories. Implemented user authentication to ensure secure interactions, fostering a collaborative online community for developers and tech enthusiasts.

Password Manager.

· https://itssecurenest.netlify.app

• Developed a password manager web application using React, enabling users to securely store and manage usernames and passwords for various websites. Implemented local storage functionality for data persistence and enhanced user privacy.

Notes Taking App.

· https://makeurnotes.netlify.app

• Developed a Note Taking web application using React, enabling users to securely store and manage their daily notes for various works or subjects. Implemented local storage functionality for data persistence and enhanced user privacy.

Crypto Currency Price Tracker.

· https://github.com/PriyeshRai369/cryptopricetracker.git

• I have developed a crypto currency price tracker with Java Script **using API**. In this I have used **coin cap API** to fetch all data of crypto. And I also use another **API** for getting the images of that particular Coin. In this project I used is HTML, CSS & Java Script.

Tic Tac Toe Game.

· https://itstictack.netlify.app

• I have developed a Tic Tac Toe game with **HTML, CSS & JavaScript**.

Weather App.

· https://soweather.netlify.app

• Developed a Weather web application using **HTML, CSS & JavaScript**.

Frontend Clone of Amazon, Flipkart & Myntra.

• I have created the frontend design of **Amazon, Flipkart & Myntra using HTML, CSS & Java Script** only
